

Coverage & Consumption Calculator for Armafinish 99 (UK 05/2010)

Armafinish - - is a water-based coating using an advanced terpolymer resin system. When properly applied, it is particularly suitable for the protection of Armaflex flexible thermal insulation against sunlight, UV radiation and chemical attack. The coating, when fully cured, maintains the flexibility, resistance to water vapour and fire performance of the Armaflex material. Where resistance to damage is a particular requirement the coating may be further strengthened using Arma-Chek Web random mesh glass fibre.
