

ACROSS THE USA

# Armacell supports regional relief initiatives

Armacell partners up with diverse initiatives for the construction of medical facilities in Illinois (IL), Louisiana (LA), New York (NY) and North Carolina (NC), as well as the nationwide manufacturing of protective equipment.

[www.armacell.com](http://www.armacell.com)

**Mediablink** – a Louisiana based media company converted into a face mask manufacturer, teamed up to assist with this PPE shortage. 1,000-5,000 shield produced daily with Armacell foams are available for donation to first responders, area hospitals, nursing homes and other essential entities.

**Distributor** – Distribution International in Harahan, LA

## Healthcare Facilities

Armacell's flexible equipment insulation increases energy efficiency and contributes towards a safer environment for patients and healthcare workers.

- // 1" rolls and ArmaFlex tubes used in emergency tents around Chicago
- // 40,000 sq ft of duct liner supplied for hospitals in New York – temporary Army Corps hospitals at SUNY Old Westbury and Stony Brook

**Contractor** – Union Contractor partners in Chicago, IL  
**Distributors** – SW Anderson in Farmingdale, NY and multiple distributors in Chicago, IL

## Personal Protective Equipment (PPE)

Armacell's component foams division makes closed-cell foams that are ideal for use in medical equipment and devices.

- // Armacell insulation and technical foams utilised for the manufacturing of primary medical PPE
- // Approx. 750,000 face masks and shields produced daily with Armacell foams (estimated volume: 3.5 million sq ft)

**Assembly** – Multiple OEM converters and OEM manufacturers across the USA
